COLUMBUS DAY.

The Minister of Education of Ontario has issued a circular requesting the publication of a Columbus Day Celebration on the 13th of October. As a contribution to this celebration, the popular young people's paper, "Our Boys," has invited special Columbus numbers with 10 Columbus pictures and copious sketches, poems, etc., together with a suggested programme for schools. This programme has been submitted to the Deputy Minister of Education of Ontario, and to other leading educationalists, and is by them cordially approved. This special Columbus issue can easily be had in quantities for 10 cents each. Specimen copies will be sent free to teachers making application to the publisher.

HISTORY OF THE PEAR.

Some Interesting Facts About Its Origin and Development.

The pear dates from very early times, and is indigenous to Northern Persia and Western Europe.

It was extensively cultivated in the Roman Empire.

The Romans are said to have had 26 varieties.

To Dr. Van Mons, who devoted a large portion of his time and energy in the early part of this century to the development of the pear, are we indebted for the foundation of the varieties now cultivated; and indeed some of the original productions are still very much grown as in the case of the Bourne flat pear, and others.

His method in short, was to take, root and sow again perpetually, meaning

throughout the whole process.

An idea of the thoroughness with which his labors were gained will be seen when we consider that during his lifetime he reared and studied about 1,000 varieties.

The art of cross fertilizing had not then come into practice.

This was taken up by Andrew Knight and other English cultivators and resulted in many of the varieties in cultivation at the present time.

To Dr. Van Mons, we are indebted for the fact that up to the beginning of the present century no systematic effort had been directed towards the improvement of this fruit, and in considering its present state of excellence we have an idea of the rapidity of its development.

In its wild state it is one of the largest and longest lived of our fruit trees.

Records of trees 300 years old are not uncommon.

Such a tree, with a trunk two feet in diameter, is twice as high as a man.

The old tree tradition says that they were brought from Normandy to Provence to be used for timber.

The varieties of pears in most general cultivation on this continent at the present time may be roughly divided into two classes—the first summer and fall fruits and of American origin, the second fall and winter fruits of European origin.

As a first class may be mentioned the Lawrence, Sheldon and Seckel.

Of the second class are the Josephine de Malines, Winter Nellie, Bourne and Bourne Hardy.

Most of these are grand old fruit trees now growing in the United States.

On the Detroit river there are trees eight or nine feet in girth and 70 to 80 feet high.

The old tradition says that they were brought from Normandy to Provence to be used for timber.

Most of these are grand old fruit trees now growing in the United States.

On the Detroit river there are trees eight or nine feet in girth and 70 to 80 feet high.

The old tradition says that they were brought from Normandy to Provence to be used for timber.

The varieties of pears in most general cultivation on this continent at the present time may be roughly divided into two classes—the first summer and fall fruits and of American origin, the second fall and winter fruits of European origin.

Ten freight cars were badly smashed in the Grand Trunk yard, Belleville, last Tuesday.

Mrs. Dalton's millinery opening takes place to-morrow. All the ladies of the town and district are invited.

It is probable that new game warden will be appointed in all parts of the bay district, the old officers being utterly useless.

While much has been done of late years to improve the road from Deseronto to Marysville, it is hoped that the road authorities will at an early day reduce the grades on several hills.

Mr. Dennis Hanley, of Read, places The Tribune and its readers under deep obligations by furnishing the interesting sketch of the history of the parish of St. Charles, It abounds with striking and interesting incidents.

The Bay of Quinte fair will be held at Belleville from Sept. 27th to 29th. We wish it success though the directors have erred in not advertising it properly in the papers. They have forgotten that this is the age of the post card.

The Richelieu & Ontario Company's steamer Corinthian was burned on Tuesday afternoon just below the Coteau rapids. Smoke was first seen coming from the wood work of the masts and topmasts, and the flames made their way down. Captain and Pilot Solleto kept their hands on the boat ashore, and the crew and all the passengers, 76 in number, were safely landed. The boat is a total loss.

Rev. R. J. Craig, M.A., attended a meeting of Kingston Freethinkers which was held last Tuesday at Gananoque. The reports of meetings were read, and a resolution was passed very satisfactory. An ordained missionary will be appointed to superintend the missions of North Hastings at a salary of \$800 and a free house. The home mission report was of a most satisfactory character. The thanks of the Freethinkers were voted to Rev. Gracy and his people for their kind hospitality. The next meeting will be held at Belleville on the third Tuesday in December.

Elsewhere will be found the advertisement of P. Slaven & Co., who open out in a few days in the west store of the new Hardware and General Store. This firm will carry a very large stock of dry goods of every description and will have millinery and dressmaking departments. Mr. P. Slaven is too well known in this district to deserve any introduction. He formerly carried on a hardware business in Newark where he was known as a merchant of integrity and great business tact and enterprise. His many friends in the bay district will look him out in his new location and find that he is prepared to give them good bargains as formerly. The Tribune welcomes him to Belleville on the third Tuesday in December.

Sold out.

Lieutenant Col. of the local corps of the Salvation Army, bade farewell on Tuesday night and has left for Bay. She is succeeded by Lieutenant Bradford.

Rec.

Farmers in the district complain of being victimized by buyers of cattle, etc., who by doubling up one of the bank bills in a package in some way manage to have it counted twice, thus perpetrating a fraud. Farmers should keep their eyes open and thus prevent being "imposed upon" by this trick.

Fraternals Visit.

About twenty members of United Empire Lodge, Sons of England, chartered the steamer Deseronto and went up to Belleville to visit the Mohawk Church. They received a royal welcome and were invited to an oyster supper before leaving for home. The Deserontians are loud in their praises of the grand old English style in which they were treated by the Belleville brethren.

Illegal Measures.

Mr. Wm. Johnson, Inspector of weights and measures, received a number of serious complaints against two grain threshers on in the township of Ainslieburg being charged with wilfully diminishing two measures so as to make them measure justly from one and a half to two inches below the level of the lower rim, and the bottom retempered, although they were stamped measures, while the other in Tyendina had a false bottom in his measure.

Indian Picnic.

An old fashioned picnic will be held at the Mohawk Church grove, on Wednesday, Sept. 25th, under the auspices of the newly formed Canadian Indian Rights Association of Tyendinaga. Everybody will be welcome to this happy event. It is intended to bring a basketful along. Dinner can be had for 25 cents by those who are not blessed with a wife or cousin to provide a basket. If it should happen to be a wet day the entertainment will be held at the council house. Proceeds of the picnic will be devoted to the funds of the society.

West End Mission.

The meeting to take into consideration the continuation of the West End Mission held in Union Hall last Friday evening was not largely attended but was of a most interesting character. The Rev. Mr. Sinclair and Rev. J.J. Rice which were of a practical and enduring character. The Chairman and several other gentlemen also gave brief addresses and the meeting concluded with the passing of a resolution pledging the meeting to do every thing possible to advance the interests of the Mohawk and the erection of a suitable chapel for the prosecution of its work. We learn that subscription lists have been in circulation the last few weeks, and a liberal response has been made by people of all denominations. The erection of an edifice will be proceeded with this fall.

Fredericksburg Ferry.

The steamer Alberta on the ferry route between Deseronto and Fredericksburg is almost a dead loss, and the ferry is found a great convenience alike by passengers and country. Farmers of Fredericksburg and Adolphustown are pleased with the facility which it affords for reaching Deseronto, and the town of Glengarry, and they rejoice at the prospect of fruit buyers, butchers and other business men of Deseronto, who have already found their way to those towns and also reached the district of Prince Edward, and the east of Glengarry. People of Fredericksburg and Adolphustown who desire to visit Deseronto, Belleville, etc., are now saved from eight or nine miles of dirt road to the journey to these points, in these days when time is money, the ferry is a great convenience.

CHURCH DEDICATION AT READ.

The new Catholic Church of St. Charles Borromeo, at Read, was formally dedicated to the worship of Almighty God, last Sunday, by His Grace, Archbishop Cleary, of Kingston. His Grace, who was accompanied on this visitation by Rev. Mr. F. J. McCarthy, Vicar-General, Mr. G. C. Gough, of Brockville, and Father Kelly, Archbishop's secretary, drove out from Belleville to Read on Friday, and were met at the road on Friday, and were met on the way by Rev. Father McCarthy, of Read, and a number of his parishioners who had come over to welcome His Grace.

The hour fixed for the ceremony of dedication was 10:30 a.m., but long before that hour the road and fields adjoining the new church were filled with rigs of every description, and a vast multitude of visitors from all parts of the diocese, and from Tyendinaga and Richmond, but from Belleville to Read on Friday, and were met on the way by Rev. Father McCarthy, of Read, and a number of his parishioners who had come over to welcome His Grace.

The building is heated with two furnaces.

Mr. Frank Dolan, of Belleville, was the contractor and when it is said that the building was made ready for the seats in less than four months, it may be deemed of the enterprise and ability he put into the work. Mr. Thomas Hanley, architect and contractor of Belleville, furnished the drawings and specifications and also executed the woodwork. Mr. Hanley will be congratulated on the good taste and skill which are everywhere displayed in the interior of the new church. His work has certainly enhanced the excellent reputation which he has gained as a architect of more than provincial fame. Mr. William McFie, of the same city, did the galvanized iron work and Mr. J. Miller, of Gananoque, the iron work for the organ. The inscription "Long live the Archbishop" is on the organ.

About 11 o'clock the sacred edifice was cleared of all occupants, and the Archbishop and clergy formed in procession and compassed the exterior of the building repeating the prayer prescribed by the vestry of the church. His Grace, followed the walls with holy water. The Clergy then approached the main door when His Grace presented Messrs. M. Corrigan and Dennis Hanley, representing the building committee, with a cheque for \$200, his generous contribution to the building fund. The sum then passed into the church where the same ceremony was repeated which had been performed outside. The doors were then opened and the vast congregation was then admitted. High mass was celebrated by very Rev. Vicar General Gauthier, assisted by Fathers McCarthy and Kelly. The music service was led and arranged from Belleville. After mass the building committee presented His Grace Archbishop Cleary with a complimentary address which was read by Mr. Dennis Hanley. His Grace constituted the congregation on the successive steps of the altar in which they had been engaged for some months. Since his arrival in the diocese 27 new churches had been erected and he seldom found people who had given more generously and spontaneously than those Read. He had never experienced any trouble in collecting money from the people of the diocese, a fact which he attributed to the zeal of the people for the honor and glory of God. He had boasted of their generosity and unity in other places and would continue to do so. From the affecting story of the healing of the centurion's servant by Christ he drew a lesson which he wished especially to impress upon the congregation. The Mass had been performed by Bishop in answer to the prayer of the elders of Capernaum who gave as a reason for the exercise of the Saviour's miraculous power the fact "That he was worthy whom he should do this: For he loveth our nation, and he loveth us, and we are his people." He blessed this man because he, though a pagan, built a synagogue for a dying religion, so much more would he bless those who at so much self-denial had erected a temple of worship for the religion in which he believed.

He also commended the congregation for their excellent financial condition which was most creditable to themselves and Father McCarthy.

After His Grace had finished his address, the Rev. Mr. McCarthy, of the old church and the blessed sacrament was moved from that venerable edifice to the new church. The proceedings were soon brought to a close with the Archbishop's benediction.

Rev. Father McCarthy and his attaché followed the Rev. Mr. Hanley to the new church and the blessed sacrament was moved from that venerable edifice to the new church. The proceedings were soon brought to a close with the Archbishop's benediction.

The loss will be considerable. Mr. Hudgings who is a cripple, had been carried out of his bed, and had a narrow escape.

Mr. James Fletcher, entomologist of the Experimental Farm, is at present engaged in preparing a bulletin on the horn fly, which according to popular belief, is killing many cattle. This Mr. Fletcher explains is utterly impossible. Although many reports of this kind are to be found in the literature, it is not able to trace up to one single case where the fact of death from the fly has been verified. The little pest was introduced into America about 15 years ago from the south of Europe, and is now stock and the border with Canada, and the border with the United States.

CRICKET MATCH.

The return cricket match between Napance and Deseronto elevens took place in the presence of a large number of interesting spectators last Saturday on the grounds of the Deseronto club, and resulted in a decisive victory for the Deseronto by 36 runs. Deseronto went to the bat first and were retired for 49 runs in the first inning. Macleod batted nobly, running up 18 before he was bowled out by Allan, b Merritt. The others were all 6, and the others were sent out with small figures, but there were fortunately no cyphers. Napance in this inning bowled well and fielded alertly. Napance followed but did not quite reach the bowling of Deseronto being most effective. G. Maytree got 7 for the visitors, but their score only reached 17. Deseronto again went to bat and secured 45 runs, of which Allan, b Merritt, got 10, and the others 14 and not out, while Macleod kept up his reputation by scoring 12. Napance again took the willows and were more successful than the first inning, having 41 to the credit of which F. Maybee contributed 10, and the others 6, and the others 6. Napance during the match. The victory was thus in favor of Deseronto by 36 runs as mentioned above. Napance was outbatted by Deseronto in this match. The visitors were effective in fielding and bowling. The score:

THE BIG STORE.

Everything is in readiness for the Fall and Winter Season.

Purchasers are cordially invited to call early and inspect our offerings, consisting of an enormous assortment of Woolen Goods of every description for men, women and children. Foreign and domestic manufacturers have been very successful in giving originality to the styles and colors. Our stock will be found exceedingly attractive and handsome throughout. It has been our especial pleasure to see the different departments of the store expand in business and exhibit a larger display of goods from season to season. The stock for the fall of 1892 exceeds all previous offerings in variety and attractiveness, and we have every confidence in believing that our trade this fall will eclipse anything that has gone before it.

It would be useless for us to attempt the enumeration of the different lines carried by us. Sufficient it will be to say that we are placing at the disposal of buyers an assortment of

Fancy and Staple Dry Goods,
Ready-made Clothing,
Fine Manufactured Clothing,

Gentlemen's Furnishing Goods,

Boots, Shoes and Rubbers,

Hardware, Groceries, Provisions,

Crockery, Stoves, Tinware,

Paints, Oils and Glass,

Dairy Salt and Barrel Salt,

which for general excellence will favorably compare with the stock carried by any house on the continent.

Produce of all kinds taken in exchange for goods at market rates.

Your patronage is respectfully solicited.

The Rathbone Company are still at work loading their drays on the cars at Cabotage loading and unloading the lumber which will not get all last winter's drives out this season, although they loaded 12 cars a day since June. They will probably build a new steam raising engine next winter.

Mr. James Cameron showed us a mammal which he picked up a Tuesday on the boardwalk at Cobourg. It was a small animal on its tail on its back after the manner of a tortoise. It was an unique specimen and local naturalists all over that they never saw anything like it before. It should be placed in the high school museum.

At the Toronto fair Newburgh cheese factory was first prize in color and white cheese. The cheese was the sample for the medal. This is the third gold medal the Newburgh factory won. The other two were taken at fairs at Belleville and Napanee. Mr. Maiden, proprietor of the factory, will exhibit cheese at the world's fair.

Mr. Nat. W. Pratt, Treasurer and General Manager of the Babcock & Wilcox Company, was a visitor to our town on Tuesday, being during his stay the guest of Mr. E. G. French. The Newburgh factory is in seven countries and agencies all over the world.

Robert B. Folger, M.D., a well-known Masonic historian, died at his residence in Brooklyn, on the 13th inst., in the ninetieth year of his age. He was the oldest member of the Masonic Lodge of the United States, perhaps the world's living oldest man, in his thirty-third degree in 1824. He practiced medicine in New York for many years. He was at one time a member of the Legislature of the State of New York. His mother was a native of Bengal and Franklin.

Two hundred and seventy men returned home on their cars from the Brockville and Westport railway Thursday evening, when as they were rounding a curve east of here and following each other closely, the front car jumped the track, throwing one of the cars over the C. & O. across the track. The rear car followed and the second car ran over him, inflicting such serious injuries that he died during the night. He leaves a wife and a large family of young children.

Her Majesty's prediction for Scotland and things Scotch is well known. The anticipated birth of the Windsor Royal family has been a source of great joy to all Scotch for three generations. The celebrated John Brown has been succeeded by his second brother, while a third of the privileged family is footman to Her Majesty. The great mutton and butter makers both at Osborne and Windsor are all Scotch, as are white gardeners, foresters, and game-keepers are all from the North. Their children are clad in "twed suits and Glengarry caps" and are sent to a free school.

Every little while the *Toronto Monetary Times* gives evidence of the intention to maintain a newspaper in Deseronto. The question of being the leading journal of its class. The man bus at his club, Board of Trade, hotel, or on the steamer, finds in the reading room that journal's elegant and commanding commentaries. The useful book slate with its valuable "Don'ts Don'ts!" Accompanying a recent issue was finely engraved portrait of the General Manager of the Bank of Montreal, and now the *Standard* Fall number is bound in a specially designed colors of brown and gold. It is found a fair sample, only on a more extended scale, of what is provided each week for the merchant or manufacturer who aims to be well informed on all trade topics. The *Monetary Times* has proved itself to be a most powerful educational factor in the business world.

Quick Trip. The schafer Picton, Capt. Frank McMaster, recently made a quick run from Picton to Deseronto which well deserves to be mentioned. The Picton *Advertiser* at 8:30 a.m. and arrives at Deseronto at 6:30 p.m., only ten hours from port to port.

Successful Season. Mr. George Burtch's Uncle Tom's Cabin Company has broken up for the season, although the weather at times unfavorable. Mr. Burtch has fine company and with success even beyond that of former years. His performances have been favorably noticed by the press of the province and he has lost none of his popularity, all of which must be very gratifying to the veteran manager.
